Forecast for Friday 13 Nov 2020

Weather: Rain soon clearing to leave a largely dry day with bright or sunny spells, although a few light showers are also possible. Cloud increasing through the evening bringing the risk of some patchy rain.

Chance of cloud free mountain/hill tops above 600m: 20-30% at first with extensive cloud down to 400-500m. This soon clearing and chances increase to 90%, with broken cloud mainly above the summits. Reducing to 60-70% in the evening as cloud thickens.

Visibility: Mainly very good or excellent, but lowering significantly in showers. Moderate or poor in early morning rain.
